

Exp No: 6 ARDUINO TO 16x2 LCD DISPLAY USING PROTEUS

AIM:

To write an Embedded C program to interface Arduino Uno and 16 x 2 LCD display using Arduino Uno and Proteus

PROGRAM:

Arduinoto16x2LCDDisplayusingProteus

```
#include <LiquidCrystal.h>
```

```
LiquidCrystallcd (7,8,9, 10, 11, 12);
```

```
//yourPWMnumbersmaybedifferent void
```

```
setup(){
```

```
lcd.begin(16,2)
```

```
lcd.print("putyourmessagehere");
```

```
}
```

```
voidloop (){
```

```
for(inti=0;1<13;i++)
```

```
}
```

```
lcd.scrollDisplayLeft();
```

```
delay(700);
```

```
}
```

```
}
```

SIMULATION:

OUTPUT:
